

Paintainer

Paintainer – the perfect alternative to metal containers.

Are you looking for an alternative to metal containers, when talking about a superbly decorated container for paint, Paintainer does the trick.

This special Paintainer range fulfils all the requirements for premium visual brand appearance and at the same time meets the European-wide performance requirements on tightness, tintability, etc. What sets it apart is the straight sided design and the choice of decoration possibilities from outstanding offset print with lacquer to high quality IML decoration.

Paintainers are easy to handle and get neither rust nor dents. Added to this you have less noise in the production.

Key benefits

Perfect alternative to metal

- preserving the premium visual brand perception of metal
- cost competitive solution
- no dents – no rust
- no decreased strength caused by dents
- less noise on filling lines
- less risk for scratching floor with the container
- lighter weight for easy handling and transportation
- 100% liquid tight – also during tinting

Eye-catching shelf display

- elegant displays with harmonised packaging design
- family image for different sized containers
- razor-sharp offset decoration with lacquer on 400, 800 and 1100 ml
- photographic IML decoration on 2.7 and 5.3 ltr.
- large decoration area reinforces your brand
- perfectly suited for Pan-European branding

High flexibility

- range of 5 sizes from 400 ml to 5.3 ltr.
- hanging plastic strap handle available on 2700 and 5300 ml sizes
- from transparent to all colours of the rainbow
- perfectly suited for tinting machines
