

RingSafe®

An economical series of packaging with basic tamper resistance on most sizes - RingSafe (Basic). Value adding by offset printing only.

Key benefits

- RingSafe (Basic) tamper resistance
- available in round
- 100% liquid tight seal
- same lid fits several volumes
- easy-to-open, snap-on lid
- withstands hot filling
- high quality offset
- microwave, dishwasher and freezer safe
- monomaterial construction for easy recycling

The convenience consumers appreciate

Consumers will appreciate RingSafe's easy-to-open snap-on lid. They will also like the way RingSafe retains its form when microwaved and when they dispose of the pot the monomaterial RingSafe is easily recyclable.

The performance manufacturers demand

RingSafe features a protective collar to ensure that the lid remains in place during transport and the top section retains its form when hot filling. Furthermore, several pot volumes within each lid diameter let you simplify filling and logistics by stocking a single, versatile lid.

Differentiate your product with decoration

You have the option of high quality dry offset in up to 8 colours.
