

**SuperCube®**

**SuperCube – makes your product consumers' first choice.**

If you are looking to reinforce your brand position, SuperCube will meet your expectations. The rectangular or square shape offers you premium product differentiation versus round containers, and the large decoration area suitable for high quality IML decoration emphasises your brand name.

The containers allow for optimised pallet/shelf utilisation because of the space efficient cube shape, thus reducing warehousing space consumption. This will have a positive impact on your logistical costs.

The entire SuperCube range is provided with an easy-to-open peel-off lid for maximum consumer convenience.

**Key benefits**

**Unique product differentiation**

- product differentiation versus round containers
- large display surface for maximum shelf impact
- photographic quality In-Mould Labelling (IML)

**Maximum consumer convenience**

- easy to open peel-off lid for consumer convenience
- convenient carrying compared to round
- 100% liquid tight

**Optimised logistical performance**

- space efficient rectangular shape
- cost efficient pallet and warehouse utilisation
- protective collar for stability and protection of lid during transport

**High flexibility**

- broad product range and many sizes
- suitable for both cold and hot filling as well as freezing
- both metal and plastic handle available
- optional tamper evidence
