

SuperLift®

SuperLift – adds value to your products.

From the lightest to the heaviest products, SuperLift is the right container for the job. This extensive range benefits from all the standard functional details expected from any modern container. What sets it apart is the attractive design, logistical efficiency and the choice of decoration - from the standard six colour solution to outstanding offset print, lacquer or In-Mould Labelling (IML). SuperLift's tightly centred design provides optimised pallet utilisation and warehouse space consumption and minimises risk of damage during transportation.

Key benefits

Unique branding opportunities

- high quality offset decoration with optional lacquer or IML
- decoration friendly handle solution (handle-on-collar)
- "family" image for a brand packed in different sizes

Premium user-friendliness

- easy emptying without dripping
- standard tamper evidence
- audible "click" for safety perception
- 100% liquid tight

Easy handling

- SuperLift Extra offers extraordinary strong performance
- protective collar safeguards lid and prevents container ovalisation
- same lid fits different volumes
- multiple handle solutions (plastic/metal)
- optimised pallet and warehouse utilisation

High flexibility

- broad product range in many sizes
- optional membrane lids
